

Being Part Of The Family

Your involvement in the education of your children will be the primary factor in determining their success as lifelong learners. The importance you place on helping the school to maintain high standards for academic excellence and spiritual growth will demonstrate to your child that their education is a strong priority and help them to focus their efforts based on your example. There are many opportunities to participate in the life of your school and many to contribute your talent in ways that will benefit all the children who call SSPP home. Please consider these possibilities as just a few of the ways you can help:

Scrip Worker

Library Helper

Office Volunteer

Classroom Aide

Book Fair Volunteer

Field Trip Supervisor

School Board Member

Science Olympiad Assistant

Soup Label and Box Top Helper

Playground or Lunch Room Supervisor

Breakfast and Luncheon Event Volunteer

Donating baked goods for various functions

Different Classroom Parties and Events Helper

Operate scoreboard, take admission or work at the concession stand during athletic events

Serving with one of the many groups which help our school function, including

Panther Prowl/Cub Crawl, Marketing and Auction Committees and Family School Council

Athletic Coaches (Basketball, Volleyball and Cheerleading are available based on interest, but ad hoc opportunities may present themselves.)

Many opportunities arise over the course of each school year. Notes will be sent home in the school's weekly newsletter describing different ways you can help on an as-needed basis.

As you become more familiar with SSPP, you may look around and have your own ideas for things which need to be done or ways you can be helpful. The efforts of all of our parents work together to the benefit of each and every student. We are grateful for the many wonderful contributions and hard work that go into making our school the very special place that it is.
