

Leadership

We strive to teach our students to meet each challenge with strength, with faith and with self-assurance. Leadership skills are found and forged in environments where expectations and encouragement are always high. In our classrooms and our church, on our stages, courts and fields of play, we provide the challenges that help your child develop the confidence to work independently, and the ability to contribute equally well within the dynamics of a team. There will be times in their lives when leadership means more than just standing at the front of the group: There will be times when leadership means standing alone. To be educated in a faith-filled school is to understand something absolutely vital: They are never truly alone.
